Product Discontinuation Announcement worldwide – NetModule/Hirschmann NB2800 and NB2810, Product Families

Dear Valued Customer,

This letter serves as your formal notification that Belden is discontinuing the **NetModule/Hirschmann NB2000** product family, effective **Nov 12th, 2026**.

In order to meet the latest market and technology trends, Belden is constantly developing innovative and high-quality products and variants that complement and optimize our existing portfolio. As part of this portfolio evolution, Belden is currently developing a future router platform for bus applications, based on RNX technology. Subject to final development and release plans, the platform is expected to become available during 2027 and is intended to provide a migration path for customers currently using the NB2800 and NB2810 series.
Every product has a defined life cycle, and our products are typically characterized by a very long availability on the market. However, product discontinuation becomes inevitable over a period. For example, components in these products may be difficult to obtain or may no longer be available on the market. Due to evolving cybersecurity requirements and complying with the EU Cyber Resilience Act (CRA), significant software and security enhancements are required across multiple product families. For the products listed in this announcement, component obsolescence prevents implementing these enhancements in a sustainable manner. Therefore, Belden will discontinue these products according to the milestones below.

The standard warranty terms apply to all products delivered up to the last shipment date. For more information on Belden's Long Term Product Support Policy for Industrial Networking products, please visit Long Term Product Support (LTPS).

Discontinuation Milestones worldwide – NetModule/Hirschmann

NB2800, NB2810 product family
(all subvariants including their OEM variants)

Milestones	Date
Discontinuation Announcement Date	November 12th, 2026
Last Order Date	June 30th, 2027
Last Shipment Date	November 30th, 2027
Last Service Date	November 30th, 2032

The delivery of these products will stop after the last shipment date as outlined herein. Orders will be accepted on a first-come, first-served basis, subject to component availability. Final orders can only be accepted on or before the last order date. Orders received after the Last Order Date will be subject to acceptance by Belden .
