Product Discontinuation Announcement – Lumberg Automation I/O Systems Products – Active and Passive I/O Blocks of the LioN-R Series

Dear Valued Customer,

This letter serves as your formal notification that Belden will discontinue **LioN-R** products from the **Lumberg Automation I/O systems portfolio**, effective immediately.

In order to meet the latest market and technological trends, Belden is constantly developing innovative and high-quality products and variants that complement and optimize our existing portfolio. Every product has a defined life cycle, and our products are typically characterized by a very long availability on the market. However, product discontinuation becomes inevitable over a period. For example, components in these products may be difficult to obtain or may no longer be available on the market.

Belden has a limited stock of these products to meet demand until the last delivery date. You can find the affected products in the attached list.

The standard warranty terms apply to all products delivered up to the last delivery date. For more information on Belden's Long Term Product Support Policy for Industrial Connectivity products, please visit [Long Term Product Support \(LTPS\)](#). Active special contracts in place prior to the announcement date will be honored according to the terms of that contract, with regards to product availability, warranty, or support terms.

Discontinuation Milestones – for Lumberg Automation I/O Systems Products

Milestones	Date
Discontinuation Announcement Date	August 13, 2026
Last Order Date	November 13, 2026
Last Delivery Date	January 30, 2027

The delivery of this product will stop after the date of last delivery as outlined herein. Final orders can only be accepted on or before the last order date and are subject to availability. Early ordering is strongly recommended!

Thank you very much for your trust in our company and if you have any questions or remarks, please contact your local Belden sales representative.
