Announcement of Product Change notification – Revision of CPR Classification for 70045 Loudspeaker Cable

Dear Valued Customer,

As part of ongoing manufacturing harmonization activities between Belden production sites, the CPR classification of product 70045 (2 x 1.5 mm² loudspeaker cable) will be revised as per the below table.

Product Code	Description	Previous Rating	New Rating
70045	Speaker Cable LSZH 2x1.5mm ² , CPR Dca.	Dca-s1,d2,a1	Dca-s2,d2,a1

No changes are made to conductor construction, electrical performance, mechanical performance, product dimensions, or intended application.

The change only affects the declared reaction-to-fire classification under the Construction Products Regulation (CPR).

Impact on Customers

The product remains CPR compliant and continues to meet the Dca Euroclass requirements. Customers whose installations specifically require the smoke classification s1 should review the revised declaration before deployment in new projects.

For applications requiring enhanced fire performance, Belden offers alternative cable solution 70045LW with CPR classifications up to Cca-s1,d1,a1. Alternative products may be evaluated based on the specific project requirements.

Milestone	Date
Customer Notification	September 17th 2026
Effective date	October 15th 2026

Thank you very much for your trust in our company and if you have any questions or remarks, please contact your local Belden sales representative.

Sincerely,
Belden Wire & Cable Solutions
