Announcement of Temporary Enclosure Width Change for Selected Hirschmann Networking Products

Dear Valued Customer,

In order to meet the latest market and technology trends, Belden is constantly developing innovative and high-quality products and variants that complement and optimize our existing portfolio. Every product has a defined life cycle and our products are typically characterized by a very long availability on the market. However, product changes become inevitable over a period of time. For example, components in these products may be difficult to obtain or may no longer be available on the market.

This announcement informs you about a dimensional change affecting selected Hirschmann Networking devices listed below. Due to a short-term supply constraint of certain enclosure components, devices manufactured during a limited production period will have a slightly increased enclosure width. This change does not affect the functionality, performance, temperature range, shock and vibration resistance, EMC characteristics, or any other technical specifications of the products.

PCN No: PCN-2026-07-22

Change Title: Temporary Enclosure Width Change for Selected Hirschmann Networking Products

Product Category: RSP, RSPE, SPIDER Premium Line and EAGLE 20/30

Change Classification: ☒ Minor ___ Major

Change Item: ☒ Design ___ Raw Material ___ Packaging ___ Firmware ___ Others

Affected Products:

Article No.	Product Descriptions
942053xxx	RSP
942084xxx	RSPE
942141xxx	SPIDER Premium Line
942058xxx	EAGLE 20/30

Details of change(s):

Due to a temporary supply constraint affecting a specific enclosure component, the enclosure width of the products listed above will be increased by 1 mm for devices manufactured during a limited production period starting in August 2026. All other mechanical dimensions remain unchanged. This change has no impact on product functionality, performance, environmental specifications, certifications, or compatibility with existing software and accessories.

Impact of Change(s):

Form: affected – enclosure width increased by 1 mm | **Fit:** not affected | **Function:** not affected

Reliability: not affected | **Others:** not affected

Implementation Plan:

Implementation Plan	Date
Date of Communication	22 July 2026
First Production with Modified Enclosure	Beginning of August 2026
Expected End of Modified Enclosure Usage	End of August 2026*

* Subject to component availability and supply chain conditions.

Actions:

Please forward this information to your customers and inform your purchasing, development, product management, and other relevant departments affected by this change.

Distributors are advised to forward this information to their customers who are buying the listed products.

Thank you very much for your trust in our company. If you have any questions or comments, please contact your local Belden sales representative.

Sincerely,

Hirschmann Automation and Control GmbH
