Product Discontinuation Announcement – NetModule/Hirschmann NB800, NB1601, NB18x0 Product Families

Dear Valued Customer,

This letter serves as formal notification that Belden is announcing the discontinuation of the **NetModule/Hirschmann NB800, NB1601, and NB18x0** product families, with the discontinuation announcement effective **Nov 12th, 2026**.

In order to meet the latest market and technology trends, Belden is constantly developing innovative and high-quality products and variants that complement and optimize our existing portfolio. Every product has a defined life cycle, and our products are typically characterized by a very long availability on the market. However, product discontinuation becomes inevitable over a period. Due to evolving cybersecurity requirements and the need to comply with the EU Cyber Resilience Act (CRA), significant software enhancements are required across multiple switch families. However, certain product families are constrained by hardware limitations and are therefore unable to support the necessary software changes to meet these security requirements. As a result, we are discontinuing these product families and offering alternative solutions that deliver similar or enhanced functionality while fully complying with CRA requirements.

The standard warranty terms apply to all products delivered up to the last shipment date. For more information on Belden's Long Term Product Support Policy for Industrial Networking products, please visit Long Term Product Support (LTPS). Active special contracts in place prior to the announcement date will be honored according to the terms of that contract, with regards to product availability, warranty, or support terms.

Discontinuation Milestones – NetModule/Hirschmann NB800, NB1601 and NB18x0 Product Families

Milestones	Date
Discontinuation Announcement Date	November 12th, 2026
Last Order Date	July 31st, 2027
Last Shipment Date	November 30th, 2027
Last Service Date	November 30th, 2032

The delivery of these products will stop after the last shipment date as outlined herein. Orders will be accepted on a first-come, first-served basis, subject to component availability. Final orders can only be accepted on or before the last order date. Orders received after the Last Order Date will be subject to acceptance by Belden.

While this discontinuation applies globally, product availability may differ by region. In markets where CRA requirements are not applicable, our regional commercial teams will continue to support customer demand where possible, based on remaining inventory. Customers are encouraged to work with their local Belden sales representative to discuss product availability and the most appropriate transition path to alternative solutions.
