Product Discontinuation Announcement – Hirschmann EAGLE One

Dear Valued Customer,

This letter serves as your formal notification that **Belden is discontinuing Hirschmann EAGLE One products, effective December 31, 2025**. This announcement applies to all EAGLE One variants.

In order to meet the latest market and technology trends, Belden is constantly developing innovative and high-quality products and variants that complement and optimize our existing portfolio. Every product has a defined life cycle, and our products are typically characterized by a very long availability on the market. However, product discontinuation becomes inevitable over a period. For example, components in these products may be difficult to obtain or may no longer be available on the market.

Belden has a limited stock of these products to meet demand until the last delivery date.

The already available products from the EAGLE40 family of Next-Generation firewalls are the recommended replacements for these discontinued products.

Discontinued Product Family	Description	Suggested Alternative	Description
EAGLE One variants without fiber ports	The Hirschmann EAGLE One is a field-level industrial firewall with two (2) Fast Ethernet ports, advanced redundancy capabilities and firewall learning mode.	EAGLE40-4F Router	The Hirschmann EAGLE40-4F is a next-generation, field-level industrial firewall with four (4) Gigabit Ethernet ports, real-time traffic monitoring, and advanced cybersecurity capabilities.
EAGLE One variants with fiber ports		EAGLE40-03 variants with an SFP slot	The Hirschmann EAGLE40-03 is a next-generation, high performance firewall with two (2) Gigabit Ethernet RJ45 ports & one (1) Gigabit SFP slot, IPSec VPN, stateful inspection and advanced cybersecurity capabilities.

The standard warranty terms apply to all products delivered up to the last delivery date. For more information on Belden's Long Term Product Support Policy for Industrial Networking products, please visit [Long Term Product Support \(LTPS\)](#). Active special contracts in place prior to the announcement date will be honored according to the terms of that contract, with regards to product availability, warranty, or support terms.
