REV — RELIABLE · EASY · VERSATILE

Customer

Reliable Security Sound & Data is a leader in the design and installation of IP-based surveillance and security systems, with installation experience in gaming and casino IP surveillance systems, municipal security and surveillance, education, healthcare and more.

Challenge

For its new 11,000-square-foot corporate headquarters, Reliable Security Sound & Data needed an end-to-end solution to support a full digital building installation, including PoE lighting.

Solution

Belden Category 6+ cables and REVConnect: a revolutionary RJ45 connectivity system.

Results

- Full suite of digital building applications installed:
  - ✓ **PoE Lighting**
  - ✓ **Building Sensors**
  - ✓ **Security Cameras**
  - ✓ **Access Controls**
  - ✓ **Wireless**
  - ✓ **Wired LAN**

- Termination time over **25%** faster with REVConnect versus other RJ45 brands

"[REVConnect] was quicker for us to use. We had more faith in the integrity of the connections."

– Bill Miller, *President*
