Safe, intelligent electricity reliably delivered across thousands of feet

Belden’s Fault-Managed Power System (FMPS) Cables are the industry’s first cables designed and UL listed for Class 4 cabling. They safely carry power at higher levels and across longer distances while reducing infrastructure costs. Transmitters and receivers constantly monitor line conditions to make sure power pulses are properly received. If a problem is detected, power distribution stops immediately to protect people and equipment.

FMPS Cables can be installed by the same integrators and contractors that install Category and PoE cabling. The FMPS Cable portfolio includes a line of copper cables and our new line of hybrid cables which allow for the simultaneous transmission of power and data in the same cable. All FMPS cables can be coupled with our broad portfolio of fiber connectivity products for an end-to-end infrastructure to support distributed antenna systems (DAS).

Benefits at a Glance

- Supports sensing to detect cable problems
- Extended reach (thousands of feet) with mutual capacitance of <35 pF/ft to maintain power-transfer quality
- Ideal for indoor and indoor/outdoor applications
- Hybrid construction means fewer cables to stock and fewer cables to pull

Key Features

- Stranded design maintains cable flexibility
- 300V rating
- Unshielded or shielded options
- Tinned copper conductors improve cable longevity
- Breakout and distribution fiber constructions
- OM3, OM4 and OS2 type fiber

Key Applications

- Distributed Antenna Systems (DAS)
- Passive Optical Networks (PON)
- Power over long distances
- Security (Cameras)
- Wireless Access Points (WAP)

How does Digital Electricity™ work?

1. Long-distance/high-power transmission
2. Safe to touch with active line monitoring
3. Cost effective – smaller conductors running in telecommunications trays

Example:
- **DHIP162U4B02C** - Indoor, 16 AWG, 2 Stranded Tinned-Copper Pairs, OM4, Breakout, 2 Fiber Strands, 3.0 mm Subunit, Unshielded, Plenum CL4P-OF Rated, Apple Green Jacket
- **DHIP182USD06J** - Indoor, 18 AWG, 2 Stranded Tinned-Copper Pairs, OS2, Distribution, 6 Fiber Strands, 1 fiber distribution tube, Unshielded, Plenum CL4P-OF Rated, Apple Green Jacket

* Plenum default jacket color is Apple Green. Waterblocked-Indoor/Outdoor default jacket color is black. Length specified at the time of order.

* LSZH cable is compliant to NFPA130 rating
