

HOSPITALITY SOLUTIONS

Belden is the manufacturer that can provide everything a hospitality facility needs to deploy an intelligent infrastructure.

HOTELS

Our solutions help you create an infrastructure to support integrated in-room technology and automated processes.

CRUISES

Belden provides cable and connectivity to support immersive guest experiences, wireless connectivity and system convergence onto ship networks.

CASINOS

Belden can help you find new ways to support the applications and devices that keep your casino running efficiently.

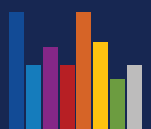

**Elevate your Guest Experience

HOSPITALITY SOLUTIONS

**Successfully integrate technology
into the guest experience with
Belden product & expertise.**

One Hand To Shake

Belden has everything you need to create an intelligent infrastructure. To provide time and cost savings, we'll help you coordinate your project from start to finish, find a consultant and choose a contractor. Simplify project management with a single infrastructure partner.

Customization

Can't find a solution that offers you what you need? Belden can provide specialized products created for your specific hospitality application. We've helped our customers create solutions to simplify cable deployment and make moves, adds and changes fast and easy.

Innovation & Wide Selection

We know that you're constantly innovating as you strive to keep guests satisfied. As technology changes, we design effective, efficient cabling and connectivity to help you find new ways to support the applications and devices that keep your facility running.

Belden's complete, end-to-end infrastructure solutions (including racks, cable and connectivity) are designed to accommodate hospitality facilities large and small—new or decades old—and all the upcoming technologies and future-forward applications headed their way.
