

## Candidate's Agreement

The certification examination is taken online.

The examination predominantly consists of multiple choice questions, arranged in sections. You can navigate back and forth between questions in each individual section, but not between sections.

When you click the button to end the examination, or when the time window expires and the examination is automatically terminated, the results will be displayed on your screen (pass / fail, and the number of points scored). The results will be stored on the Hirschmann Certification Server. If you have passed, the corresponding certificate will be sent to you via post within a few days.

If you do not pass the examination and doubt the validity of the score, you can request that an evaluation of the results be carried out by an employee of the Hirschmann Competence Center. The appraisal is binding, and Hirschmann will accept no other claims.

If you experience difficulties with your Internet connection, you can take the examination at a Hirschmann site. Please contact us to arrange an appointment.

N.B.:

Please ensure that your Internet connection is working correctly. Hirschmann is not responsible for the data rate or the stability of your connection. Hirschmann guarantees both adequate bandwidth to and availability of the Hirschmann Certification Server.
