

HIRSCHMANN IT

A **BELDEN** BRAND

Total Networking Solutions for IT/OT Convergence

Total networking solutions that can improve security, productivity and operational efficiency today, while laying the foundations for tomorrow's intelligent manufacturing opportunities.

Product, Hardware and Performance Matrix of MTS switches

Product Category	Product Code	Ports	PSU	Heat Radiation	Stackable
MTS2600 Series Switch	MTS2624-4X-B	24×FE/GE TX, 4×1/10G SFP+ slots	Fixed single power supply	Fixed fan	Yes
	MTS2648-6X-B	48×FE/GE TX, 6 1/10G SFP+	Fixed single power supply	Fixed fan	Yes
MTS2700 Series Switch	MTS2724-4X-FP-S	24×FE/GE POE/POE+, 4×1/10G SFP+ slots	2×Fixed redundant PSUs	Fixed fan	Yes
	MTS2724-6X-MP-E	24×FE/GE POE/POE+, 4×1/10G SFP+ slots, 1×extended media module slot for additional 2×1/10G SFP+ slot	2×Modular redundant PSUs	Fixed fan	Yes
	MTS2748-6X-MP-E	48×FE/GE POE/POE+, 4×1/10G SFP+ slots, 1×extended media module slot for additional 2×1/10G SFP+ slot	2×Modular redundant PSUs	Fixed fan	Yes
MTS2800 Series Switch	MTS2848TF-4X-E	32×FE/GE TX, 16×100/1000M SFP slots, 4×1/10G SFP+ slots	2×Modular redundant PSUs	Fixed fan	Yes
	MTS2832TF-4X-E	24×10/100/1000M SFP slots, 8×FE/GE TX, 4×1/10G SFP+ slots	2×Fixed redundant PSUs	Fixed fan	Yes
	MTS2824F-4X-S	24×10/100/1000M SFP slots, 4×1/10G SFP+ slots	2×Fixed redundant PSUs	Fixed fan	Yes
	MTS2824-4X-S	24×FE/GE TX, 4×1/10G SFP+ slots	2×Fixed redundant PSUs	Fixed fan	Yes
	MTS2848-6X-S	48×FE/GE TX, 6×1/10G SFP+ slots	2×Fixed redundant PSUs	Fixed fan	Yes
	MTS2824-6X-E	24×FE/GE TX, 6×1/10G SFP+ slots	2×Fixed redundant PSUs	Fixed fan	Yes
	MTS2848-6X-E	48×FE/GE TX, 6×1/10G SFP+ slots	2×Fixed redundant PSUs	Fixed fan	Yes
MTS2900 Series Switch	MTS2948X-6Q-A	48×1/10G SFP+ slots, 6×40G QSFP+ slots	2×Modular redundant PSUs	4×Modular fan tray	Yes
MTS8000 Series Switch	MTS8003-Chassis	Dual Engine, 3×media modules	4×Modular redundant PSUs	2×Modular fan tray	Yes
	MTS8006-Chassis	Dual Engine, 4×media modules 2×switch fabric modules	4×Modular redundant PSUs	2×Modular fan tray	Yes
	MTS8010-Chassis	Dual Engine, 8×media modules 2×switch fabric modules	4×Modular redundant PSUs	2×Modular fan tray	Yes

MTS2600 Series Switch - Layer2 Gigabit Ethernet Switch with 10G Uplink Ports

Entry-level access and port extension switch

MTS2600 series switch is the entry level access switch in MTS series, providing sufficient performances and flexible functions. 10 Gigabit port is available so uplink speed to core switch is assured.

All RJ45 ports in MTS2600 series switch support auto-negotiation and MDI/MDI-X, and all SFP+ slots can work under 1/10G mode. All SFP+ slots support 1G and 10G MTS SFP modules, including fiber and UTP/STP*.

*detailed information please see SFP chapter in this brochure.

For higher port density and performance at access level, MTS2600 supports stacking and downlink-oversubscribe design, in which 24 GE access ports couples with 4 10G SFP+ uplink ports. Since the MTS2600 series switch supports ERPS and have hardware based broadcast control, the switch can be deployed in ring topology.

MTS2700 Series Switch - Layer3 PoE/PoE+ Gigabit Ethernet Switch with 10G Uplink Ports

Access/aggregation switches that have comprehensive function with PoE/PoE+

MTS2700 series switches provides a whole set of access solution, which is able to support complex network design. The switches can prevent unauthorized network access or mitigate the impact of network attacks via plenty of security features.

All RJ45 ports in MTS2700 series switches support PoE/PoE+ function, which are able to provide up to 30W power supply for the PoE PD device, such as webcam, IP telephone etc. What's more, modular PSUs can provide FRU and the device can work properly under maximum temperature up to 55°C.

MTS2700 switches have comprehensive L2/L3 feature set, which can provide flexible, reliable and secure choice for network planning. Network consultant can enhance network security via DAI/DHCP snooping or can optimize multicast via IGMP snooping or can use broadcast control to ensure the network stability when UMB flooding.

MTS2800 series switch - Layer3 Gigabit Ethernet Switch with 10G Uplink Ports

Access/aggregation switches that can offer comprehensive L2/L3 feature sets

MTS2800 series switches provide a whole set of access and aggregation solution. All switches in this series are equipped with redundant PSUs. The switches have compact mechanical design with low noise which can fit in with 600mm×600mm compact cabinet. In addition, the switches can work properly under maximum temperature up to 55°C.

All the RJ45 ports in MTS2800 series switches support auto-negotiation and MDI/MDI-X. The switches can be applied to various working situations such as desktop, ELV room and data aggregation layer. The switches have 4 or 6 SFP+ slots and support stacking configuration, which can eliminate single point of failure and provide MC-LAG.

MTS2800 series switches have comprehensive L2/L3 feature sets and furthermore can provide flexible, reliable and secure choice for network planning. The general security and flow control technology such as DAI, DHCP snooping, IGMP snooping and 802.1x that the switches have can help administrator to deploy a secure & robust network infrastructure.

MTS2900 Series Switch - Layer3 10Gigabit Ethernet Core Switch with 40G Uplink Ports

High capacity aggregation/core switch

MTS2900 series switch provides industry leading ports density and switching speed. It not only serves as a core switch, combined with MTS2600/MTS2700/MTS2800 to offer compact data network solutions, but also works as a aggregation switch, with MTS8000 to offer large network solutions.

MTS2900 series switch offers 48 SFP+ slots, all these slots support 1G/10G SFP modules and support multiple SFP application that varies from 550m multi-mode SFP to 80km single-mode SFP+. The 40G QSFP in MTS2900 can offer high-speed uplink/interconnection links. The switch can be used in deployment model basing on spine-leaf and can support openflow 1.3 SDN controller.

MTS2900 series switch has enhanced L2/L3 feature set. It is able to support database level network and offer amazing configuration flexibility in the meantime. The switch support router protocols such as OSPF/BGP/ISIS and so on, it also support core routing protocol such as MPBGP/MPLS. In addition, MTS2900 support all switching/routing feature sets of MTS2700 & MTS2800 and can offer continuous security strategy and configuration logic.

Product Feature

Technical Information

Product description	
Type	MTS2948X-6Q-A
Description	1U rack mount 40G Core Switch, 48×1/10G SFP+ slots, 6×40G QSFP+ slots, redundant PSU, advanced software
Port type and quantity	48×1/10G SFP+ slots, 6×40G QSFP+ slots, 1×USB, 2×RJ45 console port, 1×FE/GE RJ45 out of band management port, 1×Reset Button
Power supply	2×modular redundant PSUs, hot swappable
Heat radiation	Modular fans
Order No.	942999824
Mechanical construction	
Dimensions (W×D×H)	440mm×560mm×44.2mm
Weight	12.4kg
Mounting	Rack mount
Power requirement	
Operating voltage	100-240VAC 50-60Hz, redundancy PSU supported
Power consumption	200W
Ambient conditions	
Operating temperature	-10°C...55°C
Storage/transport temperature	-40°C...70°C
Relative humidity(non-condensing)	10%...90%
Storage/transport humidity(non-condensing)	5%...95%
Software	
Software level	Advanced software
Stacking	Stackable, up to 8 devices in one stack
Approvals	
CE / FCC	Compliant
China Network Access Certificate	Compliant
CCC approval	Compliant
RoHS compliance	RoHS(EU) 2015/863) and RoHS(GB/T26572-2011) compliant
Scope of delivery and accessories	
Scope of delivery	Device, console cable, installation package
Accessories to order separately	Network Management Industrial HiVision, SFP, PSU module, fan module*

* A MTS2948X-6Q-A switch must have four fan modules to make it work properly.

Enterprise Ethernet: MTS2900 series switch accessories: PSU	
Name	MTM2900-PSU250
Product description	
Description	AC/DC 250W PSU; AC Input 100-240V; DC Input 192-288V, 3.5A; Output 12V/20.8A, 5VSB/2A; Hot-Swap supported.
Order No.	942999822
Service	
Diagnostics	LEDs (PWR) at basic device
Current consumption	
Activation current	typ. < 40A at 220VAC and cold start
Technical data	
Operating voltage	100-240VAC
Operating temperature	-10°C...55°C
Input frequency	50-60Hz
Nominal power of voltage supply	250W (220V/110V)
Power requirements	
Current consumption	1.7A (220V), 3.4A (110V)
Scope of delivery and accessories	
Scope of delivery	PSU module

Enterprise Ethernet: MTS2900 series switch accessories: Fan	
Name	MTM2900-FAN
Product description	
Description	Modular Fan, Hot-Swap supported, 4 units fan are mandatory for MTS2948X-6Q-A
Order No.	942999823
Service	
Diagnostics	LEDs (FAN) at basic device
Technical data	
Operating temperature	-10°C...55°C
Scope of delivery and accessories	
Scope of delivery	Fan module

MTS8000 Series Switch - Layer3 Modular Core Switch

Modular core switch

MTS8000 series switch has compact configuration and powerful extension capability. The switch provides industry-leading SFP+/QSFP port density inside 6U/11U/15U chassis. Besides, it provides lots of ports in various types and can support PoE/PoE+. MTS8000, together with other switches in MTS series, provides an end-to-end total network solution.

MTS8000 series switches have dual redundant engines, up to 8 media module slots and they are able to support GE, SFP, SFP+ and QSFP type of ports. Besides, both MTS8006 and MTS8010 have 2 switch fabric slots. Moreover, MTS8000 devices can be managed by SDN controller via OpenFlow 1.3. Thus, no matter serves as a spine node in spine-leaf topology or as a core node in traditional topology, MTS8000 can play its best part.

MTS8000 has enhanced L2/L3 feature set and is able to support data center level network. The switch support router protocols such as OSPF/BGP/ISIS etc. It also support core routing protocol such as MPBGP/MPLS. The switch also supports stacking and MCLAG, which can provide a higher level network redundancy and performance. Besides, MTS8000 support all switching/routing feature sets of MTS2700 & MTS2800 and can offer continuous security strategy and configuration logic.

Regarding the details in this catalog: Alterations may have been made to the product after the editorial deadline for this publication, namely Feb. 2021. The manufacturer reserves the right to alter the construction and form, manufacture different shades and amend the scope of delivery during the delivery period insofar as the alterations and differences are acceptable to the buyer while allowing for the seller's interests. Insofar as the seller or the manufacturer uses signs or numbers to mark the order or the ordered item, no rights may be derived from this alone. The illustrations may also contain accessories and special equipment which are not part of the mass-produced scope of delivery. Color differences are attributable to technical aspects of the printing process. This publication may also contain types and support services that are not made available/rendered in some countries. The information/details in this publication merely contain general descriptions or performance factors which, when applied in an actual situation, do not always correspond with the described form, and may be amended by way of the further development of products. The desired performance factors shall only be deemed binding if these are expressly agreed on conclusion of the contract. This catalog will be used internationally. Please consult your pertinent seller about the provisions and effects that apply to your country, and regarding the latest binding version.

About Belden

Belden Inc. delivers the infrastructure that makes the digital journey simpler, smarter and secure. We're moving beyond connectivity, from what we make to what we make possible through a performance-driven portfolio, forward-thinking expertise and purpose-built solutions. With a legacy of quality and reliability spanning 120-plus years, we have a strong foundation to continue building the future. We are headquartered in St. Louis and have manufacturing capabilities in North America, Europe, Asia, and Africa.
