

# Growth Through Partnerships

---

Belden's expansive network of business partners complements and enhances the total value we offer customers around the world. Whether you are an established company or an emerging company with innovative new technology, every connection is an opportunity to grow in the industry.

Backed by 120 years of connectivity, networking and infrastructure excellence, Belden has been a trusted OT/IT expert for decades helping customers take the next step in their digitization journey. Together with our Ecosystem Partners, we are accelerating that journey.

The collective resources, talent and domain expertise of Belden and our Partners empower the customer to focus on what matters most to them.

## Partner Alliance Ecosystem Program

Our Partner Alliance Ecosystem Program offers providers with complementary technologies the opportunity to partner with us to solve complex customer challenges through enhanced solutions that deliver sustained business value.
