Product Discontinuation Announcement for EMEA and AMS Region – Hirschmann MACH1000 Product Family

Dear Valued Customer,

This letter serves as your formal notification that Belden is discontinuing **the Hirschmann MACH1000 product family**, effective February 2nd 2026.

In order to meet the latest market and technology trends, Belden is constantly developing innovative and high-quality products and variants that complement and optimize our existing portfolio. Every product has a defined life cycle, and our products are typically characterized by a very long availability on the market. However, product discontinuation becomes inevitable over a period. Due to evolving cybersecurity requirements and the need to comply with the EU Cyber Resilience Act (CRA), significant software enhancements are required across multiple switch families. However, certain switch families are constrained by hardware limitations and are therefore unable to support the necessary software changes to meet these security requirements. As a result, we are discontinuing these product families and offering alternative solutions that deliver similar or enhanced functionality while fully complying with CRA requirements.

The standard warranty terms apply to all products delivered up to the last delivery date. For more information on Belden's Long Term Product Support Policy for Industrial Networking products, please visit [Long Term Product Support \(LTPS\)](#). Active special contracts in place prior to the announcement date will be honored according to the terms of that contract, with regards to product availability, warranty, or support terms.

Discontinuation Milestones for EMEA and AMS Region – Hirschmann MACH1000 Product Family

Milestones	Date
Discontinuation Announcement Date	February 2nd, 2026
Last Order Date	March 31st, 2027
